PERSONAL PROJECTS

Portfolio Avenue

- A portfolio website is a digital platform where individuals or professionals can showcase their work, skills, and accomplishments. It serves as a centralized hub for displaying a curated collection of projects, designs, artwork, photographs, or any other creative or professional endeavors.

Sign and Gesture Detection

- Sign and gesture detection refers to the technology and process of identifying and analyzing various signs and gestures made by humans using computer vision and machine learning techniques. It involves the recognition and interpretation of hand movements, body postures, facial expressions, and other non-verbal cues to understand and extract meaningful information.

News website

- The News articles are considered to provide authentically and verified information to the people in the society. Therefore reading proper news content is highly important for all the people living in this world.

IMDB website

- The IMDb articles are considered to provide authentically and verified information to the people in the society. So the concept of movies websites is being developed by the techies to update the global population.

Completed Login page.

- It was made with CSS, Tkinter and API.

Completed Mini Calculator

- It was made with CSS and Tkinter.
